PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in Machine Learning, Data Analysis, and Python development. Proficient in Python, NumPy, Pandas, Matplotlib, and Scikit-learn, with experience building predictive analytics and machine learning projects. Possess knowledge of web technologies including HTML, CSS, JavaScript, PHP, and MySQL, along with foundational understanding of React and Node.js. Passionate about Artificial Intelligence and Data Science, seeking internship opportunities to apply analytical skills and contribute to innovative AI-driven solutions.

TECHNICAL SKILLS

Programming & Data Science: Python, NumPy, Pandas, Scikit-learn, Data Analysis, Data Visualization, Matplotlib

Web Technologies: HTML, CSS, JavaScript, React (Basic), Node.js (Basic), PHP

EXPERIENCE

Data Science & Machine Learning Intern

June 2024 – August 2024

BrainyBeam Technologies Pvt. Ltd.

Ahmedabad, India

- Worked on data preprocessing, cleaning, and analysis using Python and data science libraries.
- Applied machine learning algorithms for predictive modeling and classification tasks.
- Performed exploratory data analysis (EDA) and data visualization using Pandas and Matplotlib.

Python Web Application Development Intern

August 2023

Praxware Technologies

Ahmedabad, India

- Learned Python programming fundamentals, including data structures, functions, and object-oriented programming concepts.
- Gained exposure to web application development concepts and software development workflows.

PROJECTS

Bank Marketing Subscription Predictor

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit

- Developed a machine learning application to predict customer subscription to bank term deposits using a dataset containing 40,000+ customer records.
- Performed data cleaning, preprocessing, feature encoding, and exploratory data analysis (EDA) to prepare data for model training.
- Implemented and compared Logistic Regression and Random Forest models to evaluate predictive performance.
- Analyzed model accuracy and performance metrics to select the most suitable model for deployment.
- Built an interactive Streamlit web application that enables users to enter customer details and receive real-time subscription predictions.
- Created visualizations to identify customer behavior patterns and support data-driven insights.

Chess Game

Tech Stack: Python

- Developed a command-line chess game implementing core chess rules and piece movement logic.
- Applied object-oriented programming concepts to manage game components and player interactions.
- Implemented move validation, game state management, and check/checkmate detection.

EDUCATION

Silver Oak University

2025 – 2028

BTech in Computer Science Engineering

Ahmedabad, Gujarat, India

Current CGPA: 9.73

R.C. Technical Institute

2022 – 2025

Diploma in Computer Engineering

Ahmedabad, Gujarat, India

CGPA: 8.56
