PROFESSIONAL SUMMARY

- Computer Engineering student with internship experience in Machine Learning and Data Science.
- Skilled in Python, Pandas, NumPy, Scikit-learn, and Data Visualization, with hands-on experience in predictive modeling.
- Passionate about Artificial Intelligence and Data Science, with practical experience in machine learning, data visualization, and model development.

TECHNICAL SKILLS

Languages: Python, Java, C++, JavaScript, PHP

Data Science: NumPy, Pandas, Scikit-learn, Matplotlib

Web: HTML, CSS, Flask, Streamlit, MySQL

EXPERIENCE

Data Science & Machine Learning Intern

June 2024 – August 2024

BrainyBeam Technologies Pvt. Ltd.

Ahmedabad

- Processed and analyzed datasets containing thousands of records using Python, Pandas, and NumPy.
- Developed and evaluated machine learning models for classification tasks, improving understanding of predictive analytics workflows.
- Performed exploratory data analysis (EDA) and created 10+ visualizations to identify trends and patterns in datasets.
- Collaborated on real-world data science projects involving data cleaning, feature engineering, and model evaluation.

Python Web Application Development Intern

August 2023

Praxware Technologies

Ahmedabad

- Built Python programs to strengthen understanding of programming fundamentals and problem-solving techniques.
- Implemented object-oriented programming concepts through hands-on coding assignments and mini-projects.
- Gained practical experience in debugging, testing, and code optimization techniques.
- Learned software development lifecycle concepts and web application development fundamentals.

PROJECTS

Bank Marketing Subscription Predictor

Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib, Streamlit

- Built an ML model to predict bank term deposit subscriptions using 40,000+ customer records.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) to improve data quality and model performance.
- Evaluated model performance using accuracy, precision, recall, and confusion matrix to ensure reliable predictions.
- Compared Logistic Regression and Random Forest models and deployed the best model using Streamlit.

Chess Game

Tech Stack: Python, Pygame

- Developed a command-line chess game using Python and OOP principles.
- Implemented move validation, game-state tracking, and check/checkmate detection.

EDUCATION

Silver Oak University

2025 – 2028

BTech in Computer Science Engineering

Ahmedabad

Current CGPA: 9.73

R.C. Technical Institute

2022 – 2025

Diploma in Computer Engineering

Ahmedabad

CGPA: 8.56
